## transmediale studio @ silent green Kulturquartier

Since 2020, transmediale e.V. has been based in the silent green Kulturquartier, where it runs its own project space – transmediale studio. The multi-functional venue is a 200m2 open space, which host events within the framework of the transmediale festival and can be rented for exhibitions, lectures, performances, screenings, readings, concerts, workshops, or open studios.

The studio is equipped with technical hardware that is available for hire, including audiovisual equipment (projection screen, projectors, TV screens and a variety of speakers) as well as lighting and sound equipment (spotlights, microphones, streaming set-up). The space can be completely darkened. In addition, tables and seating options can be organised to create flexible workstations.

silent green is an event venue and independent project located in the historic premises of the former crematorium in Wedding. Founded in 2013, the privately run cultural quarter sees itself as a protected space where people can think, research and experiment. The inhouse restaurant, MARS | Café & Bar, is the heart of silent green and offers a place for informal exchange between tenants, the public and residents.
